

Roaa AL-lehyani

Software Engineer | Full-Stack Developer | DevOps Engineer

Results-driven Software Engineer and Data Analyst with hands-on experience in full-stack application development, data analysis, Business Intelligence, and database engineering. Skilled in developing scalable web applications using **Python, Flask, PostgreSQL, and MySQL**, designing secure REST APIs, building dashboards with **Plotly**, and writing efficient SQL queries to transform datasets into actionable insights. Experienced in workflow automation, process optimization, and delivering reliable, data-driven solutions. Passionate about solving business challenges through modern software engineering and data-driven decision-making.

WORK EXPERIENCE

Software Engineer

Fakieh Poultry Group | Full-time

Apr 2025 - Present

Accomplishments / Tasks

- Led the development of the **Hatchery Intelligence System**, automating data workflows and system-wide reporting, across 4 hatcheries.
- Built and deployed scalable **Flask + PostgreSQL** backend with **Plotly dashboards** and **CI/CD on Heroku**.

IT Systems Engineer

King Abdulaziz Hospital

Oct 2022 - Nov 2023

Accomplishments / Tasks

- Managed system configuration and maintenance for hospital IT applications.
- Developed automated scripts that reduced manual maintenance efforts by 30%.

Full-stack Developer

Saudi Digital Academy Virtual Internship

Feb 2022 - May 2022

Accomplishments / Tasks

- Completed a 360-hour internship focused on **web application development** using **HTML, CSS, and JavaScript**.
- Built and integrated **REST APIs** with responsive front-end interfaces.

DevOps Engineer

Saudi Digital Academy | Coding Dojo

May 2021 - Sep 2021

Accomplishments / Tasks

- Built and optimized cloud infrastructure using **AWS, Docker, Kubernetes, and Terraform**.
- Developed **CI/CD pipelines**, improving deployment efficiency and reliability.

Android Developer

Wadi Makkah | Internship

Accomplishments / Tasks

- Developed and maintained mobile applications using **Java & XML**, enhancing user experience and engagement.

EDUCATION

Bachelor's Degree in Computer Science

Umm Al-Qura University, Makkah, Saudi Arabia

SKILLS

Cloud & DevOps Expertise – Hands-on experience in AWS, Docker, and Terraform with proven automation skills.

Software Engineering Background – Proven ability to build, secure, and optimize enterprise applications.

Python Proficiency – Skilled in Python for backend development, automation, and data-driven solutions.

Digital Transformation Experience – Delivered scalable systems aligned with Vision 2030's digital objectives.

Fast Learner & Problem Solver – Demonstrated ability to solve complex challenges efficiently.

TECHNICAL SKILLS

Programming & Development

Python (Flask), JavaScript, HTML5, CSS3 (Tailwind CSS), Alpine.js, REST APIs, OOP.

Data, Database & Cloud

PostgreSQL, MySQL, SQL, Database Design, Database Architecture, Plotly, Power BI, AWS (EC2, S3), Docker, Kubernetes, Terraform, Heroku, CI/CD Pipelines.

Collaboration & Systems

Git, GitHub Workflow, Branching & Code Review, Technical Documentation, Linux Administration, Security, Database Optimization, UI/UX.

CERTIFICATIONS & TRAINING

Full-Stack Developer

Saudi Digital Academy

DevOps Engineering

Coding Dojo

SOFT SKILLS

Communication

Problem-Solving

Leadership & Initiative
